PROFESSIONAL SUMMARY

Java Professional with 3 yrs experience in **core and advanced Java, Mysql, and Spring Boot**. Proven communicator, committed to surpassing project goals and client expectations. Successfully orchestrated projects like Class Room Videos, leveraging **Spring Boot, Spring Mvc** and **Java frameworks**. Enhanced efficiency and elevated customer experiences, driving a 30% conversion rate increase. **Ready to deliver impactful solutions for your organization's success.**

SKILLS AND ACCOMPLISHMENTS

- **Core Java**: Strong grasp of object-oriented programming, data structures, and algorithms.
- **Advanced Java**: Knowledge of multithreading, collections, JDBC, and serialization,java 8.
- **Java Frameworks**: Familiarity with Spring Boot and Spring Mvc.
- **Database**: Proficient in SQL queries, database design, MySQL integration.
- **Web Development**: Understanding of HTML, CSS, JavaScript.
- **Agile Methodology**: Experience with Scrum, Jira, and Agile development.
- **Version Control**: Knowledgeable in Git,SVN for code management and collaboration.
- **Testing & Debugging**: Skilled in debugging, and code quality.
- **Problem Solving**: Strong analytical skills for resolving complex technical challenges.
- **Communication**: Effective collaboration and communication with teams, stakeholders, and clients.
- **Continuous Learning**: Proactively staying updated with emerging technologies and industry trends.
- Mentored & assisted 3 members frontend team on Spring Boot application building, highlighting strong problem-solving skills and technical expertise.

WORK EXPERIENCE

JAVA DEVELOPER | Ayotta Infotech Pvt Ltd, Bangalore **(02/09/2021) – (20/09/2024)**

Project 1 |ClassRoom Videos, Ayotta, **Bangalore**
Developed a Java-based Classroom Video Management System for PES College using Spring Boot ,HTML,CSS,jquery,javascript. This system facilitated the efficient organization and delivery of classroom videos, enhancing the learning experience for students and instructors.

Responsibilities:

- Developed efficient and scalable Java code, leveraging Spring Boot framework, resulting in a 20% improvement in application performance.
- Resolved critical bugs and issues through meticulous debugging and testing, ensuring a bug fix success rate of 95% and minimizing production incidents by 30%.

- Integrated Java applications with databases (e.g., Oracle, MySQL, PostgreSQL), optimizing database schemas and executing SQL queries for seamless data retrieval and storage.
- Conducted code reviews, resolving 90% of bugs and enhancing application performance by 15%.
- Achieved an on-time delivery rate of 95% by utilizing Agile methodologies and delivering software modules within tight deadlines.
- Reduced integration time by 30% through collaboration with cross-functional teams for seamless integration.
- Improved software quality by decreasing post-release defects by 20% through close collaboration with QA teams.

Java Backend Developer – Microservices Project for ICICI
Project 2 | Deal Booking for Foreign Exchange Transactions (18/11/2024)– Present
Client: ICICI Bank
Contributed as a backend developer to a microservices-based system designed to facilitate foreign exchange deal booking, with real-time rate retrieval from the IFRA system. Leveraged expertise in Java and microservices architecture to enhance functionality, scalability, and system performance.

Responsibilities and Contributions:

- **Foreign Exchange Deal Booking**: Developed and maintained backend services for booking and managing foreign exchange transactions, ensuring seamless integration with external rate providers.
- **Integration with IFRA**: Implemented robust API integrations to retrieve real-time forex rates from the IFRA system, ensuring accuracy and timeliness in deal processing.
- **Microservices Architecture**: Designed and maintained scalable microservices using Java, enabling modular development and efficient handling of financial operations.
- **Performance Optimization**: Enhanced the system's performance by optimizing database queries and API communication, reducing latency during peak usage.
- **Data Integrity and Security**: Ensured secure transaction processing by adhering to banking industry standards for data security and encryption.
- **Collaboration**: Worked closely with cross-functional teams, including frontend developers, QA engineers, and client stakeholders, to deliver high-quality solutions.

EDUCATION

BTech (Bachelor of Technology) **Graduation Year (2017)**
Nova College Of Engineering and Technology,Vijayawada
